

# Weekly Vac Service

The service would start after we open your pool and would end on Labor Day. The service costs \$85.00 per hourly visit and consists of the following:

- 1) Vacuum pool once a week.
- 2) Net leaves and debris floating on the surface of the water.
- 3) Check pool water for levels of Free and total chlorine, Ph, Total Alkalinity, Calcium Hardness and Cyanuric acid and adjusting the levels as needed. We can use your chemicals for these adjustments or chemicals which we supply. Cost of the chemicals which we supply are additional.
- 4) Check and empty the pump basket(s) and skimmer basket(s) and pool cleaner as needed.
- 5) Check the filter pressure and backwash as needed.
- 6) Check general operation of the filtration equipment.

We also offer a weekly chemical check which consists only of items 3 through 6 above and costs \$70.00 per weekly visit.

***Our goal is to help you enjoy your pool more.***
